### ABOUT ME

-  8 years of specialized experience in Next.js, React, and TypeScript.
-  Led teams of up to 10 engineers, achieving a 98% on-time project completion rate.
-  Proven ability to increase user engagement by 30% across web applications.
-  Committed to continuous learning and efficiency in both professional and personal spheres.

### SKILLS

- Javascript, Typescript
- Next JS, React JS, Node JS
- Cypress, Jest
- Prisma, GraphQL, MongoDB, PostgreSQL
- Amazon S3, EC2 and ECR
- Git, Github Actions, Github Runners
- Google Chrome Extensions
- Familiar with Deno, Bun...

### EXPERIENCE

#### Full Stack Developer | NUWA | Estonia — Since Jun 2023

Developed full stack responsive websites, using latest versions of NextJS. 13.4 and upper.

- Decreased database query responses by implementing cache from **1.15s** to **9ms**
- Implemented over 100 components using latest UI libraries like Shadcn & Tailwind

#### Font-End Team Lead & React Developer | Solution Apps DG GmbH | Germany — 1 Year 8 Months

Developed a multi lingual marketplace admin panel covering +20 features like managing Orders, Products, Suppliers, Stocks...

Participated in a team of 3 until the project was over, used latest technologies.

- Deployed an automation project using Docker and Kubernetes, reducing deployment time from 4 days to 2 hours and saving 30+ hours of development time per month.
- Refactored marketplace legacy codes reducing 2x smaller project size.
- Developed over 50 reusable-components.
- Prioritizing tasks for 3 other team members.
- Managed team by improving coding practices, assigning tasks, performing code review, and making sure unified code structure is being used across projects.

### Node & React Developer | Polwinno | Iran — 3 Months

An open source charity project that has the following features: list of Donors, Donations, list of Needy. Calculate Monthly donations.

- Wrote a mini ORM to interact with MSSQL queries in NodeJS. Resulting in lowering project size dependency and increasing runtime speed, and reducing build time deployment more than 5seconds.
- Won first team position on Sabkad 4 coding contest by using highly optimized algorithms.
- Managed Github repo and tasks on daily basis.

### Front-End Developer | Mahaksoft | Iran — 1 Year 4 Months

Design static pages using semantic HTML, CSS and Bootstrap. Build projects using PHP and NodeJS.

Build restful APIs and Soap.

- Optimized main website load time from 13s to 3s.
- Redesigned 60 pages resulting in increased google lighthouse by 25%.
- Designed landing pages via vanilla JS resulting in significant reduction of page load from 10s to 1s.

### Javascript Freelancer — Since 2017 - 5 Years 9 Months

- Collaborated for 5 major projects in different related to these:
- Medical - Made a wireless EMS hip trainer device in a team of 4.
- Productivity - Designing Todo cross platform App for better productivity.
- Branding and Digital Marketing - Building digital personas using Wordpress engaging over 3k monthly users.

### > Unrelated to Coding - Tech Support - 2 Years

Served in this role at 3 companies since beginning my professional programming career. Set up VPN servers, OpenVPN, L2TP, PPTP, iKev2, and Server Monitoring Systems.

- Resolved customers problems by configuring and modifying their server configs.

### AWARDS

First team in ICT Coding contest 2022

First team in Sabkad 4 Coding contest 2021

### LANGUAGES

Deutsch (Germany) - A2

English - IELTS 7.5

Persian (Farsi) - Native

### OPEN SOURCE

I've been contributing to open sources on major projects like [Typegraphql-prisma](#), [Deno](#). And been working on my [Stack overflow profile](#) gaining over 21 Badges. And asked questions with more than **8k views**.

### EDUCATION

Ferdowsi University - Mashhad - Artificial Intelligence & Robotics — Since 2022

Imamreza University - Mashhad - Computer Science — 2016-2020
